The Cholera Scare in Cleveland, Ohio.

General Grant's Condition.

Guatemala Being Crushed—The Dynasties More Trouble for Egypt—The Isthmus.

The Illinois Senatorship.

NEW YORK, April 13, 8:45 a. m.—Gen. Grant slept in his chair from midnight until 6:30 a. m. He was disturbed occasionally by attacks of coughing with expectation. He awoke expressing himself feeling quite comfortable. Has just taken nourishment without pain and is resting quietly. Pulse 72, temperature normal.

Senator Chaffee left the house at 9:15 a. m. He stated that the disease was spreading. The Senator was with General Grant an hour. There was some pain this morning attending the taking of food. The cancer in the throat was suppurating. The General seemed no weaker than yesterday and during the hour of the Senator's call, the patient coughed only once and the expectation of success was accomplished without difficulty. So long as the General was nourished, the Senator believed, he would survive until the gradual course of the cancerous disease produced death.

2:30 p. m.—General Grant has somewhat improved in his general condition since the last bulletin. The slight severity of the throat during the morning was relieved by cocaine. The secretion of mucus has diminished and the cough become less troublesome. The patient walked without assistance to an adjoining room and sat in the sunlight. Pulse and temperature unchanged.

Guatemala Being Crushed.

LA LIBERTAD, via Galveston, April 12.—A treaty of peace has been signed between the governments of San Salvador and Honduras. The latter republic has joined the alliance against Guatemala. The armies of San Salvador and her allies are advancing on the city of Guatemala from various points and are everywhere welcomed by the populace. Many of the disbanded Guatemalan troops are joining the allied forces.

WASHINGTON, April 13.—Senator De Peralta, minister from Costa Rica, has received a dispatch from the Costa Rican minister at the City of Mexico, who says that the Central American trouble is settled. The dispatch gives no details, but De Peralta assumed the fact that Honduras has entered the already strong alliance of the States of Costa Rica, Nicaragua and Salvador, and the determined attitude of the Mexican Government against the Barnes project of compelling a union of Central American States, has convinced the Guatemalan Government that it is the better policy for them to take no steps towards forcing the States into a union.

The Dynamiters.

QUEENSTOWN, April 12.—Stephen J. Meany, associate counsel for Cunningham and Burton, who are charged with causing the explosion at the Tower of London in January, arrived here today from New York. He says his journey to the United States to secure evidence to exonerate his clients, was crowned with the greatest success. He says he has procured conclusive evidence to prove an alibi for Burton, and expresses the opinion that the government has no direct evidence against Cunningham, except that he was in the Tower at the time of the explosion.

France and China.

PARIS, April 13.—Orders to cease hostilities were sent to Admiral Courbet and General De Lisle on the 10th inst. French troops, however, are still embarking for Tonquin. A dispatch from Hui-Phang, says General De Lisle, in an order of the day to the French troops, attributes the recent events to the transfer of the command in consequence of General Negrier's wound to hands unprepared to undertake the charge and expresses surprise that the enemy did not venture to pursue the French.

LOSDON, April 13.—Dispatches from Hanoi say the Chinese government in Tonquin has received orders to cease hostilities.

The Soudan.

CAIRO, April 12.—General Wolseley says he has no idea of abandoning his intention to recapture Khartoum in the autumn.

Wales in Ireland.

DUBLIN, April 13.—A scene of great excitement attended the departure of the Prince and Princess of Wales today, for the south of Ireland. On their route to Kingsbridge railway station their royal highnesses passed Dublin Castle Hall; an immense crowd had assembled to witness the departure of the royal visitors. Lord Mayor John O'Connor happened to drive past the City Hall a few minutes before the royal carriage appeared; the crowd recognized him and hissed him severely. Mr. O'Connor, at this flew into a violent passion. His display of ire only made the crowd more demonstrative in their derisive greetings. The Lord Mayor, unable to withstand the storm any longer, stopped his carriage and mounting the City Hall steps, called for cheers for Parnell. The response was not great and did not indicate that O'Connor had any great number of sympathizers in the assembly. He then addressed the gathering and told them they would be sorry for having hissed him. He said he would telegraph Parnell at Cork an account of what had occurred in Dublin, and they would see what the result surely would be. Soon after the Prince and Princess of Wales were driven past the City Hall on their way to the railway station. They were greeted with tumultuous and prolonged cheering.

The Afghan Affair.

LONDON, April 12.—The effect of Gen. Komaroff's detailed statement which showed the Afghans provoked the recent battle, has been weakened by reports received by way of Austrian telegraph stations on the Russian frontier, that Pendjeh was occupied by Colonel Alekhanoff, on the 2d inst. General Komaroff stated that he was obliged to occupy Pendjeh in order to stop the pillaging of the district by Turcomans. The Afghan had threatened to assume offensive operations. The Russian minister of war has sent a congratulatory message to General Komaroff and has directed him to thank the troops in the name of the Czar, and announce to them that all who took part in the battle will be rewarded according to their rank.

ST. PETERSBURG, April 12.—The Official Messenger publishes the following telegram from General Komaroff, dated April 1st: "On the 25th of March our detachment approached Dash Kapri; when near the bridge we saw an entrenchment occupied by Afghans. In order to avoid a conflict, I stationed my troops five vests (a little over three miles) from the Afghan position. Negotiations with Captain Yates (a member of Sir Peter Lumsden's force) commenced on the 26th. When the Afghans became convinced that they had no intention of attacking them, they daily drew nearer to our camp. On the 27th they dispatched against a company of ours a reconnoitering party of three companies, with a gun and some cavalry. Next day, their audacity and arrogance increasing, they occupied a high and commanding position on the left flank of our camp, made entrenchments and placed a cavalry post in the rear of our line and a pocket within gunshot of our fort. On the 29th I sent the Afghan commander an energetic summons to evacuate the left bank of the Kusk River and the right bank of the Murghab, as far as the mouth of the Kusk. He replied that acting on the advice of the English, he would retire beyond the Kusk. I then sent him a private letter, couched in amicable terms. On the 30th, in order to support my demand, I marched with my detachment against the Afghan position, still expecting a pacific issue. But the fire from the Afghan artillery and an attack of their cavalry compelled me to accept a combat."
